---

## SCHEDULE OF EVENTS

All events are held on the main stage in the food court area, unless otherwise noted

---

**2 p.m.**

Discover the latest in increasingly-popular permanent cosmetics during a demonstration by renown local permanent make-up artist Lynn Duncan

### Permanent cosmetics take the years off

Just imagine waking up in the morning and looking radiant. No need to waste your time lining your lips, eyes and brows; they're already done. The days of early morning mirror shock are history; you've treated yourself to the latest miracle of modern beauty enhancements: permanent cosmetics.

Permanent cosmetics are the result of a state-of-the-art technique that applies makeup, such as lip color and eyeliner by way of intradermal pigmentation. Lynn Duncan of Lynn Duncan's Permanent Cosmetics in Delafield offers these and other permanent cosmetic procedures.

"Every woman wants it," says Duncan. "They just might not know it yet." Duncan, who holds the highest accreditation as a permanent cosmetic instructor/trainer for the Society of Permanent Cosmetic Professionals, co-wrote the state exam for permanent cosmetics and is on the legislative board for regulating permanent cosmetics in the state of Wisconsin.

As more and more women opt for permanent cosmetics, the word is spreading: Permanent cosmetics work wonders. Jean C. of Lake Geneva, one of Lynn Duncan's clients, says, "I can't say enough about my permanent cosmetics – I suppose what I love most about them is that you've artistically managed to literally take years off of my face – for this I am eternally grateful."

Don't you wish you could take the years off, too? And, while you're at it, shave off a few minutes from your daily morning routine? A few extra minutes of sleep never hurt, you know. Permanent cosmetics may be the answer.
